

HEART WITH LEAVES

[Instructional Video](#)

MATERIALS NEEDED:

- 2 DIAMOND CLASSIC HORSESHOE - SIZE #1
- 2 Horseshoe nails

1

1. Place the shoes together as shown in Photo #1 and insert a nail on each side to hold the shoes together in true alignment. You may bend the nails for a more secure fit.

2

2. Once the two shoes are held securely together, use a hacksaw or cut off wheel to cut the shoes at the second last nail hole on an approximate angle of 45°. (Photo 2)

3

3. Lay the two larger pieces of horseshoes on the welding table and check the joint fit. Some touch up grinding may be necessary to get a perfect joint fit. (Photo 3)

4

4. Weld the two pieces together (Photo #4).

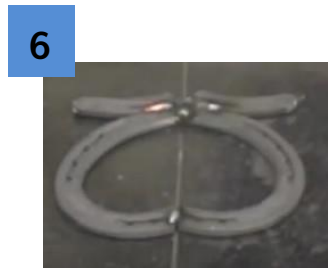

5. Next, position the two short pieces that were cut from the horseshoes and position them at the bottom of the Heart. (Photo #5) Their position is up to you, they may pointing downward or upward, with or without a space between them.

6. Once the short pieces are in the position you desire, weld them to the Heart. (photo 6)
7. You can add pegs to the heart if you wish to use it as a key holder or necklace holder. If you want to use it as a wall decoration it is ready to paint, move to step 8

8. Finally, grind the welds and clean up any spatter before painting.
